

## **Project description**

(max. 10 pages)

<b>General information</b>				
Funding programme				
Title of the research project				
Applying institution				
Organisational unit				
Discipline				
Principal investigator (PI)				
Requested approval period (from – to)	Date	Date		
For follow-up application ( <i>funding has already been granted under this program</i> )	Yes	<input type="checkbox"/>	No	<input type="checkbox"/>
Cooperation partner/partner institution				
Title and name of the PI				
Country				
Parallel funding and/or parallel application in another DAAD programme?	Yes	<input type="checkbox"/>	No	<input type="checkbox"/>
If yes, please specify				
Has a project application been submitted to another funding organization or public agency for the same purpose?	Yes	<input type="checkbox"/>	No	<input type="checkbox"/>
If yes, please specify				
Has this project application already been submitted to the DAAD but was rejected?	Yes	<input type="checkbox"/>	No	<input type="checkbox"/>

### **Short summary of the project** (*max. ½ DIN A4-page*)

----------

### **For follow-up applications: Progress from previous project**

Please describe the previous project progress (implementation of measures/activities and achievement of objectives) (*max. ½ DIN A4-page*).

----------

### **Description of the project**

1. Describe

<ul style="list-style-type: none"> <li>• the project content wise</li> <li>• the planned work packages in the overall course of the project (in chronological order and structured)</li> <li>• the project objectives (outcomes) to be achieved within the scope of the funding</li> <li>• the scientific relevance of your project</li> <li>• the relation of the project to the program objectives</li> <li>• Potentials as well as possible risks and how to address them</li> </ul> <p>2. If the application was previously rejected, respective adjustments must be indicated here.</p>

Description of the measure	
Describe:	
<ul style="list-style-type: none"> <li>• the planned research stays</li> <li>• the associated work packages</li> <li>• the associated methodology</li> </ul>	
For further measures, insert additional table rows.

Success indicators with targets	
Specify the substantial contributions you are aiming to make to the respective success indicators. The targets must be realistically achievable during the project duration.	
Success indicators	targets
Master's theses to which a substantial contribution will be made	
Doctoral theses to which a substantial contribution will be made	
Contributions suitable for publication	

<b>Planned international mobility of the research groups</b>				
<b>German project participant to perform stay abroad</b> (Please state the name, if known)	<b>Academic status</b>	<b>Research task (short form, keywords)</b>	<b>Duration (in days)</b>	<b>Planned date of stay (MM/YYYY)</b>

<b>Project participants of the foreign partner</b> (Please state names, if known)	<b>Academic status</b>	<b>Research task (short form, keywords)</b>	<b>Duration (in days)</b>	<b>Planned date of stay (MM/YYYY)</b>

**Composition of the applicant institution's project team**

Please explain briefly how your project team is composed and address **diversity-related** criteria in addition to **technical criteria**.

**Roles in the project**

Please list the roles of the individual participants from the German and foreign partners within the project.

**Climate sensitivity**

Briefly explain how you intend to organize the project in the most climate-friendly way possible.
